RE: Recent Granite Installation of Kitchen Countertops

Dear Sirs:

I am writing this letter to express our "happiness" with our new granite kitchen countertops that were recently installed.

From the first time that I visited your business I was greeted pleasantly by Tony @ Top Granite 2 and as I selected many different colors that I took home to decide which color to select, we finally decided on one that we are extremely pleased with. Tony assured me that the slab of granite we selected would display the print well and he laid it out just so it did that. The pattern is laid out very nicely.

Your installation time is unbelievable; who would have thought you can receive granite tops in just days. Your staff was friendly and laughed at all my jokes. You all taught me a bit of the granite process from start to finish.

I love the extra little touches of the smoothing of the not visible side surfaces and of course that bonus cutting board that I so wanted.

The faucet and soap dispensers are in and working great and the new sink is plenty deep for dishes created from my Chef husband.

Thank you all at the team of Top Granite 2 for a fine job from start to rapid finish. I will definitely refer you to many more and perhaps have you return for bathroom vanity top replacements.

*Sincerely,
Renee & Michael Fisher
Jeffersonville, PA*
